Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Commissioner for Patents United States Patent and Trademark Office P.O. Box 1450 Alexandria, VA 22313-1450 www.uspto.gov

Applicant is advised that under rule MPEP 707.13 the office action previously mailed on <u>March 18, 2009</u> to applicant's attorney was returned to the office as undeliverable. Currently the office action has no official change of address from the attorney of record.

The time period as specified on the attached PTO-326 form for reply to the Office action will be restarted to run from the mailing date of this letter.

707.13 Returned Office Action [R-6]

Office actions are sometimes returned to the Office because the United States Postal Service has not been able to deliver them. Upon receipt of the returned Office action, the Technology Center (TC) technical support staff will check the application file record to ensure that the Office action was mailed to the correct correspondence address. If the Office action was not mailed to the correct correspondence address, it should be stamped "remailed" with the remailing date and mailed to the correct correspondence address. The period running against the application begins with the date of remailing. If the Office action was mailed to the correct correspondence address and it was addressed to an attorney or agent, a letter **>along with a copy of the Office action may be sent to the first named inventor or assignee (if available)< informing him or her of the returned action. **>The time period for reply to the Office action will be restarted to run from the mailing date of the letter informing applicant of the returned action.

DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the desiccant being pumped through the heat exchanger, as claimed in claims 9 and 81 and the direct heat transfer of claim 1 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filling date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Application/Control Number: 10/500,053

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1,4-10 and 72-82 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The 8-13-2007 amendment amended claim 1 to claim that the liquid desiccant in the one reservoir is directly cooled by at least one fluid. This cannot be found in the original specification. The 8-13-2007 remarks cite three places where this could be found in the specification, but none of the three citations clearly state that the heat exchange is direct. Direct heat exchange is a term of art meaning that the objects or fluids exchanging heat contact each other, with no solid or fluid between. Lines 7 and 8 of page 5 state that direct (evaporative) heat exchange can be used to cool the air, but the desiccant is not discussed. Lines 23-32 of the same page do not discuss methods of heat transfer, other than the pipe losses of the transfer. The cite from page 14 states that air can be used to cool the desiccant in the heat exchanger, but does not state that the heat exchange can be direct. Page 6 states that the air can be used to cool other air directly, or indirectly by cooling the desiccant, but does not state that the desiccant can be directly cooled. Claims 4-10 and 72-82 depend from claim 1, so they are rejected due to this dependency.

Allowable Subject Matter

Claims 25-30,32,34 and 36-38 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Doerrler whose telephone number is (571) 272-4807. The examiner can normally be reached on Monday-Friday 6:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
